## Summary:

I love working on set. I am comfortable doing craft services and medic together. I can also arrange lunch through pick-up from local 5 star restaurants (if fewer than 40 people). I have never gone over budget. I have experience working on crews of many different sizes from 24-80 people with up to 150 extras. I normally work craft services/catering delivery, but have recently been certified as an EMT in order to provide more services on set. I am bilingual and can read and write in Spanish and English.
