Education

BYU-Idaho
Bachelor of Science in Communications

Rexburg, Idaho
Dec. 2020

Filmmaker

Film Production | Web Video | Digital Media

Creative Communications Specialist focused on video and websites, producing varied content for businesses, government agencies, athletes, non-profit organizations, and professionals. Creating testimonials, training, public service announcements, and product introductions. Applying strong digital and website skills to bring a new dimension to video presentations. Examples of products offered include Action Series for athletes, Informational Series for small businesses, and Custom Video for anyone who wants something other than an Informational or Action Series. Experiences include working closely with clients, developed well-thought-out scripts and shot lists, effective production scheduling (shooting more than one video simultaneously, hence series), actual production for clients, and editing.

Core Competencies

Writing | Directing | Camera Operation | Video Editing | Business Management | Production Management | Production Schedules | Budget | Leadership | Celtx | Adobe Premiere Pro | Davinci Resolve | Adobe Illustrator | Adobe Audition | Adobe After Effects | Sony Camcorders | Canon DSLR | Video Post-Production | HD Video | Search Engine Optimization (SEO)

Awards and Recognition

Script Competition Second Rounder at Austin Film Festival 2020 | Student Award for Best Screenplay at BYU-Idaho 2019

Work Experience

Madison County Transportation, Rexburg, ID

November 2020

For a senior project at BYU-Idaho, I developed a video series for Madison School District. I completed a training video, a public service announcement, and a testimonial video.

- The transportation department uses the training video for their annual training meetings. All bus drivers are now able to receive their ongoing education requirements.
- The Public Service Announcement was used to raise awareness on the dangers of running an extended stop-arm and the correct way to respond to an extended stop-arm on a school bus.
- The transportation department used the testimonial video to make their case to the district to order more propane buses.

Mountain Valley Farmstead, Carmen, ID

November 2020

I produced a documentary about a couple who left their home to start a dairy sheep farm in Idaho.

More work experience can be provided upon request.
