## Work Experience

---

### **Videographer/Editor**

Preston Weaver Films - Pleasant Grove, UT  
January 2020 to Present

I have successfully made a video business where I have created wedding videos, product videos, advertisements, and more. I manage pre-production, shoot, edit, and color grade. This job has required me to learn and become an expert on operating a camera, computer, and editing software (premiere pro). I have learned how to manage data and keep it organized.

### **Video Assistant**

Alex Rhett Films - Provo, UT  
June 2020 to April 2021

I have been an assistant Videographer for another freelance videographer. Helping shoot at weddings, product shoots, and other sets. I am what they call a second shooter. Usually, I will be called when needed. I will manage lighting and other camera operating systems while the main shooter is occupied with other parts of the projects.

### **Editor**

Tanner Christensen - Farmington, UT  
September 2020 to October 2020

I worked as assistant editor for a commercial project where I made edits according to the script that I was given. This job only lasted about a month because I did move on quickly to my own business.

## Education

---

## Certifications and Licenses

---

### **Production Assistant**

April 2020 to Present

I am certified by the Utah Film Commission as a Production Assistant. I am required to help anywhere on production. From the cinematography, lighting, and more.

## Additional Information

---

I have had the opportunity to film or help with 3 student short films. One where I directed myself, another where I was a Production Assistant, and lastly as a Camera Op.

I am constantly filming and creating new things for myself and for clients. I freelance around the nation filming weddings, advertisements, and personal projects. I am sufficient in many different skills ranging from the camera to sound and lighting. Whatever I do I do it to my absolute best ability. I learn quickly and I am open to criticism so improve my skills as a filmmaker.
