Summary

I graduated from the Advanced Placement Program at Eastern High School with an emphasis in Media Arts in May, 2020. I am currently at Brigham Young University and am in the Media Arts major. I am looking to further develop filming skills in a practical work setting through this amazing opportunity.

I'm a motivated film student willing to learn and adapt to where they are needed. I'm an enthusiastic and collaborative team member who works well under pressure and welcomes challenges. I have some experience in producing, directing, set design, location scouting, casting, camera, gripping, and editing.
