4554 N. Canyon Rd. Pleasant Grove, UT 84062

I have been privileged to work under many gifted pyrotechnicians and engineers where I have learned the skills to better help you achieve your desired result. I have been in the motion picture industry since 1995, working on various projects; both large and small. I work closely with my clients to plan various special effects and execute them safely and successfully. In Utah and NM, we have a full shop, trailer, rain towers, wind machines, snow machines, and much more fx equipment available.

### Pyrotechnics

I hold a Utah Display Operator, and Utah Special Effects Operator licenses, allowing me to perform most types of pyrotechnics. I am also a member of A.S.E.P.O. (The Alliance of Special Effects and Pyrotechnic Operators)

### Mechanical Effects

I design and construct all effect based effects and props. Also rigging, flying, and remote control

### Atmospheric Effects

Wind, rain, snow, and fog, etc. and I have all equipment available to do so.
